

# PART 5

## OPEN DATA

## Open Data

Additional information for a number of departmental initiatives and measures is reported on the department's website [www.communities.qld.gov.au](http://www.communities.qld.gov.au) and the Queensland Government Open Data website <https://data.qld.gov.au/organization/communities-disability-services-and-seniors>.

Under the Open Data initiative, the department provides the public with access to key government information and generates market opportunities.

During 2017–18, the department published 19 datasets, with a total of 257 resources.

The department publishes and regularly updates data on the Open Data website, including information about:

- ▶ disability and community care services
- ▶ disability applications and tools
- ▶ funding for people with disability
- ▶ non-government grants and funding
- ▶ services for seniors
- ▶ community recovery.

The department has an Open Data governance process which involves extensive risk assessment of datasets prior to publication, to ensure identifiable data is not published.

Service procurement and grant funding provided to organisations in 2017–18 is reported through the Queensland Government Open Data website <https://data.qld.gov.au/> and the Queensland Government Investment Portal <https://www.qld.gov.au/about/how-government-works/state-budget-economy/investment>.

Additional reporting information (including consultancies, overseas travel, Queensland Language Services Policy) for 2017–18 can be found at <https://data.qld.gov.au/organization/communities-disability-services-and-seniors>.
