### Self-Assessment Workbook – Certification

*For organisations undertaking a self-assessment using HSQF User Guide – Certification*

Version 5.0

# HSQF Self-Assessment Workbook - Certification

The HSQF Self-Assessment Workbook – Certification has been developed by the Department of Communities, Disability Services and Seniors (DCDSS) to assist organisations required to demonstrate compliance with the Human Services Quality Framework (HSQF) by achieving independent third-party certification against the Human Services Quality Standards (the Standards).

Self-assessment against the Standards is an opportunity to identify what your organisation is doing well and areas for development or improvement. Organisations preparing for initial HSQF certification are generally required to undertake a self-assessment (sometimes referred to as a Stage 1 audit) prior to scheduling the organisation’s onsite (Stage 2) audit.

This Self-Assessment Workbook – Certification can be used by organisations preparing for their Stage 1 Audit. However, **use of this Self-Assessment Workbook - Certification is not mandatory.**

Organisations may choose to use other tools such as on-line platforms or self-assessment tools provided by their independent third party certification body.

Additional information about HSQF certification, is available at [www.communities.qld.gov.au/hsqf](http://www.communities.qld.gov.au/hsqf)

## General Instructions

The Self-Assessment Workbook is available in two formats: Word and Excel. You only need to complete your self-assessment in one format.

The Self-Assessment Workbook replicates the common mandatory requirements that all organisations must meet as well as the service specific requirements that are mandatory for particular services streams or services.

Organisations planning to submit the Self-Assessment Workbook to their Certifying Body for a Stage 1 Audit should:

- complete the ‘Self-Assessment and Organisation Details’ sheet (part of the self-assessment workbook)
- fully complete the Self-Assessment Workbook by addressing all Indicators including common mandatory requirements as well as the service specific requirements relevant to the services included in the scope of the organisation’s HSQF certification.
- complete a Continuous Improvement Plan listing the actions identified in this Self-Assessment Workbook. A template Continuous Improvement Plan is available on [the Certification page](http://www.communities.qld.gov.au/hsqf) at [www.communities.qld.gov.au/hsqf](http://www.communities.qld.gov.au/hsqf)

The Self-Assessment Workbook and Continuous Improvement Plan should be saved as a PDF prior to submission.

The *Human Services Quality Framework User Guide - Certification* on [the Certification page](http://www.communities.qld.gov.au/hsqf) at [www.communities.qld.gov.au/hsqf](http://www.communities.qld.gov.au/hsqf) contains comprehensive information about the mandatory evidence requirements for organisations seeking certification to the Standards.

Both the “Common” and the service specific requirements are easily identifiable by colour coding aligned with the coloured arrows in the *Human Services Quality Framework User Guide - Certification* as shown in the Legend below:

Service Specific Area Legend				
Common	Child Protection Placement Services	Child Protection Support Services	Families	Domestic and Family Violence
Sexual Violence and Women’s Support	Individuals	Young People	Disability Services	Mental Health

While the “Common” and the service specific requirements are outlined within this self-assessment workbook, important supporting information including references relevant to specific indicators, safety requirements, terms and definitions and links to relevant resources is contained within the *Human Services Quality Framework User Guide – Certification V7.0*, which should be read in conjunction with this workbook.

## Types of Evidence

Evidence should be gathered from various sources to show that an organisation is meeting each standard and its performance indicators. The strongest evidence can be verified through interview (people), observation (process) and documentation (paper). While there is no set rule about how much evidence is required when undertaking a self-assessment, an organisation should look for examples of evidence from each of these sources for every standard indicator.

Each organisation should assess whether the evidence collected meets the intent of each standard indicator and addresses the requirements outlined in the *Human Services Quality Framework User Guide – Certification*. Where there are gaps in policies, processes, systems or practices document relevant Improvement Actions to be implemented to address those gaps.

### Responding to Individual Need

**Expected Outcomes:** The assessed needs of the individual are being appropriately addressed and responded to within resource capability.

**Context:** The organisation provides appropriate services that are identified/assessed, planned, monitored, reviewed and delivered in collaboration with the person using the service, their representative and/or relevant stakeholders. The organisation uses referral pathways and partnerships to promote integrated service provision.
